# How does Solidify equipment pay you?

1. Down and dirty number: mixing mud with a rotary mixer can cut by over 1/3 the amount of stabilizer used.
2. Delivers consistent mixtures in 1/2 the time keeping the workforce satisfied!
3. Keep the workplace **SAFE** by eliminating the risks of handling and hand cutting heavy, over head bags and inhaling dangerous material with a Bag Buster!
4. By utilizing the SolidiFly system your company image will not be tarnished by poor environmental stewardship.

Watch a 50 second video at [SolidiFly.com](http://SolidiFly.com) to see how saving ½ a ton of fly ash a day makes it pay!

**Lower labor cost, lower stabilizer cost, lower trucking cost, lower landfill cost.**  
**Solidify...we're all mixed up!**
